- Hospital (as tagged in OSM)
- Community centre / NGO / CBO
- Government office / police
- Matatu / boda boda stage
- Railway station
- Railway crossing
- Market / shopping centre
- Bank / fuel station

About this map

Every feature shown comes from OpenStreetMap, including the village boundaries and the toilets, water points, schools, clinics and organisations surveyed on the ground by Map Kibera. Nothing on this map was drawn by hand or estimated.

Coverage and accuracy depend on the available datasets. Village boundaries are not universally agreed and are shown as approximate. Facilities may have closed, moved or been renamed since they were surveyed; about 38% of mapped points carry no name. Many small clinics are tagged "hospital" in the source data and are shown as tagged. Shops, eating places and hotels are in the data package and the interactive map but are omitted here to keep the print legible.

Facility labels are shown where space allows (hospitals, community centres, NGOs, offices, stages, markets, colleges); all other points are symbolised without a name. Use the interactive edition to search every mapped feature by name.

Data and attribution

Map data © OpenStreetMap contributors, Open Database Licence (ODbL) — openstreetmap.org/copyright. Field mapping by Map Kibera (mapkibera.org). Extract: Overpass API, OSM data as of 31 May 2026. Projection: WGS 84 / UTM zone 37S (EPSG:32737); graticule in WGS 84. Compiled 27 October 2026. Private household information is not shown.

Inside the mapped extent: 380 schools & ECD centres · 154 hospitals & clinics · 124 pharmacies · 1,031 water points · 1,168 toilet blocks · 236 places of worship · 111 community centres & NGOs
